

Sharon-Brush is a self-contained machine with rotating brush, designed for professional cleaning of large areas of carpet and hard floor. A special device allows to switch from carpet to hard floor cleaning by simply turning a knob. The rotating brush, with automatic pressure adjustment, is able to deep clean both very dirty carpet and hard floor. Its small width (only 29 cm) allows the machine to be used also in very narrow rooms. The water-flow can be adjusted for a maintenance low-moisture cleaning or a restoration deep-cleaning.

It is possible to connect the hand tool NS10PN to the machine, for cleaning armchairs and hard-to-reach spots. Sharon-Brush is indicated also for the hiring to private users thanks to its strength and its ease of use. Its professional features make Sharon-Brush suitable also for cleaning companies.

Main application fields: Large Carpet Areas like Hotel Banquet Halls, Corridors, Hospital Floors, Conference Halls.

Injection-extraction cleaning

Carpet cleaning

Hard floor cleaning

Advantages of Sharon-Brush:

1. It is possible to clean both carpet and hard floor with a single machine. The commutation from carpet to hard floor cleaning and vice versa is done easily, simply turning the lever on the vacuum head.
2. Reduced width (only 29 cm) for professional cleaning even of small surfaces of carpet and hard floor.
3. Powerful and reliable brush motor which allows a deeper and faster cleaning.
4. Possibility to push the machine forward on hard floor without lifting the vacuum head thanks to proper support wheels.
5. The machine is light and easy to carry.
6. Vacuum head in die-cast aluminium, practically indestructible.
7. Special profile of the vacuum head, which allows a shorter drying time.
8. Plastic and rubber handles, which avoid the cooling of the worker's hands.
9. The height of the handle is adjustable so that it can be regulated according to the stature of the worker.
10. Water spraying can be operated simply turning the handle of the machine.
11. Tubes in stainless steel, strong and rustproof for the whole machine life.
12. Quick disconnect spray nozzles, which can be replaced by hand: the nozzles can be cleaned easily and without using any tool.
13. Automatic adjustment system of the rotating brush pressure according to the kind of carpet.
14. Brush easily replaceable with no need of turning the machine over.
15. The hand tool NS10PN-M, supplied as standard, allows to clean hard-to-reach corners.

Other technical data of Sharon-Brush

1. High density polyethylene tanks, very strong and made for lasting a long time.
2. Transparent unbreakable cover, which allows to see the dirt while vacuuming.
3. Recovery tank easily detachable from the machine body, in order to make the tank emptying and cleaning easier.
4. The filters of the vacuum motor are easy to reach and removable for an easy cleaning.
5. The gasket are not glued and replaceable by hand. Easy to clean and change.
6. Strong wheels, in antimark rubber.
7. Brass quick-disconnect couplings, reliable and strong.
8. Water pump with bypass, which allows the automatic regulation of the optimal water lift according to the tool used. Moreover, the bypass device makes the pump more reliable and avoids problems in the years.
9. Pump built on Santoemma specifications, for lasting long.
10. Vacuum motor with thermal protection against overload.
11. Vacuum motor treated against rust.
12. Both motor and pump can work continuously.
13. Brush motor with thermal protection against overload.
14. Stainless steel brush bearings for a longer life.
15. Modular design that makes the maintenance easier. The maintenance of the machine can be done really at low costs.

Technical Data

Recovery tank capacity:	12 litres
Solution tank capacity:	12 litres
Max performance:	120 sq m/h
Vacuum motor:	2 stages
Power:	1000 W
Maximum waterlift:	2200 mm H ₂ O
Maximum air-flow:	50 l/sec.
Pump with by-pass:	vibrating
Power:	70 W
Maximum pressure:	4 bar
Maximum water-flow:	1,5 l/min
Cleaning width - carpet/hard floor:	270/290 mm
Number of nozzles:	3
Brush:	90 W 600 rot/min 232 mm
Max performance - carpet/hard floor:	120 sq. meter/h
Cable length:	10 m
Hose length:	2,5
Weight (machine body):	21 kg
Weight (packaged machine):	25 kg
Dimensions:	29 x 78 x 90 cm
Package dimensions:	36 x 60 x 76 cm
Standard colours:	Blue
Tank construction:	High density polyethylene

Complete machine for carpet and hard floor cleaning + hoses H10-M + plastic hand tool NS10PN-M	
--	--

Suggested optional tools

NS270N-M	Tool for carpet and hard floor, with aluminium head, 1 nozzle, tubes in stainless steel	
NS270TURBODUST	Complete accessory with rotating brush and internal bag for vacuuming before cleaning, Ø 32/38	

Optional Tools at Extra Cost for Sharon-Brush

Sharon-Brush with standard hoses and hand tool NS10PN-M

Wand NS270N-M

Advantages of Optional Tools:

1. With Long Wand (Carpet Tool): Can get in to the smaller corners, under the furniture where machine cannot go in
2. With Small Hand Tool: Can clean Chairs, Sofa's, Cushions

Advice:

**** It is always advisable to Vacuum the Carpet before using the Shampoo Extractor for better results**
