

TOPPER 429 COMPACT SUB MARKET

The Sub Model Vacuum is a unique vacuum with a submersible pump inside the recovery tank. This feature allows you to suck up water as normal with the vacuum hose, whilst simultaneously emptying the tank with the submersible pump via an outlet on the back of the tank. This feature is ideal to move water from one container to another, but even more appropriate for dealing with floods in buildings - work places - offices - homes. The model is provide with a durable PE plastic roto-moulded tank.
